

MAN IS SLEEPLESS FORTY-ONE YEARS

George H. Heiser of Pittsburg
Has an Affliction That Baffles
the Doctors.

WALKS THE STREETS
TO SECURE HIS REST

Wife Laughingly Says She Has
the Most Wide Awake Hus-
band on Earth.

PITTSBURG, Aug. 19.—To live without sleep for only a short time would kill the average person, but there is a man in Pittsburg who has not known a refreshing sleep for over forty-one years. This seems almost incredible, but there are scores of people who will vouch for the truth of this strange statement.

Medical men are unable to give a scientific explanation of this man's strange ailment. In barbarian times it was the custom in China and other far Eastern countries to cut the eyelids from captured pirates and other criminals so that they could not close their eyes in sleep. They became crazed in a few days and died a horrible death.

This victim of this strange affliction is George H. Heiser, a former hotel man and for some time in the employ of the Phoenix Brewing company. He is a prominent Elk and member of Pittsburg lodge No. 11. He first became afflicted with the strange ailment after suffering from brain trouble when 8 years old. His illness at that time was what is now pronounced brain fever. His condition as to sleeplessness has become worse when he witnessed a murder three years after recovering from brain fever.

Victim Describes Strange Case.

Heiser has consulted some of the most eminent specialists on insomnia in the country, and they declare that they cannot account for his inability to sleep. In speaking of his strange case, Heiser said: "I don't know what sound sleep is. I never have had an hour of restful slumber in the last forty-one years of my life. I am not nervous, but I am not a fact and all my friends and others who have known me for a long time will vouch for the truth of my statement. I have gone for months at a time without even closing an eye.

The only way I get the recuperation that comes from sleep is by going through the motions, going to bed or lying down somewhere else and closing my eyes. I feel as if I am going to sleep, but I am not. I usually attend insomnia by keeping my mind on things that are pleasant to think about. I have many ideas in my mind for a long time, and I picture it in my mind from the first hour up until the last hour. I have insomnia has sent too many people to the madhouse for me to take any chances on allowing my mind to run on any particular thing that tends to worry a person.

"When I was a lad I never thought that I would live to attain my majority, but my general health is good. I am more nervous than the average person, however. I confine myself to no particular food, but eat very little."

Sleepless When a Child.

It was young Heiser's custom during pleasant weather to go out at night after the family was in bed and asleep and roam about until he became quite as pretty much the same with the man in the prime of life. He is a great reader, and has a fine library, but his eyes have become somewhat weak by the long hours of night reading. When he can no longer read, he steals out of the house and accompanies the night policeman on his beat on which he lives and walks with him until morning. During the sixteen years that Heiser has been a resident of Pittsburg he and his wife have lived in different parts of the city, and by reason of the man's night walks with the policeman he has become widely acquainted with members of the department. This sleepless man has some strange ideas about sleep. He believes that a person does not have to have much comatose rest.

"With a growing child it may be necessary," he said, "but after mature age I believe that it is more or less of a habit. I have never suffered any serious ill effects from lack of sleep, since I have grown to manhood, but when I was a growing boy I was somewhat of a weakling as a result of lack of comatose rest."

Although, as Heiser says, he has suffered no serious results from his sleeplessness, he has been refused as a risk by different life insurance companies. He

the ideal food for all classes, the result of years of investigation.

10 cents a package.

For sale by all Grocers

has been advised by some physicians to take sleep-producing drugs, that were said to be harmless, but he steadfastly refused to do so. However, as an experiment, he tried one of the several drugs recommended. He took three large doses and for two hours was in a slumbering condition, as if in a natural sleep. But Heiser says those two hours of unconsciousness were filled with horror and endless nightmare of the Dante inferno sort. He never experimented again.

Ask your grocer to send you Royal Bread. It is made in a clean bakery and the Crown label is on every loaf.

BALLOONIST SHOT FROM CANNON FAILS TO DEATH

NEW HAVEN, Conn., Aug. 21.—Five thousand persons saw a man fall from a balloon this afternoon and dash to pieces on top of a factory building in the outskirts of this city. He was Theodore French, son of a local policeman, and was 19 years old.

During the past week the city billboards have been plastered with an announcement that John Mack, an aeronaut, who has been making balloon ascensions all summer at Savin Rock, would today give an unusual exhibition. His assistant, French, the posters said, would be shot from a cannon attached to the balloon when it was floating a mile over the city.

The advertisements drew an immense crowd to the point. The spectators had an opportunity to study the cannon, which was attached to the basket of the balloon. It was a metal case large enough to hold a parachute and an ordinary-sized man. When closed a spring inside released the parachute and the passenger. French fearlessly locked himself in the cannon and the balloon was cut loose. The combined weight of the cannon and the boy inside seemed to make it unmanageable. When 1000 feet up there was a flash of smoke and a thunderous rumbling in the wake of the balloon saw a dark object shoot downward with incredible speed.

The parachute did not open. French landed on top of the Mathushek Piano company's main factory building. Nearly every bone in his body was broken.

DeWitt's Carbolized Witch Hazel Salve penetrates the pores and heals quickly. Sold by Anstee-Brice Drug Co., 44 South Main.

BALL PLAYER KILLED BY SWIFT BATTED BALL

NEW YORK, Aug. 21.—Death came to Daniel McKee in a singular manner today. He was the captain of the Franklin ball team of Newark, which went to Chatham, N. J., to play the Athletics. He had been calling his team in from practice and was walking from first base toward the home plate when a runner struck full in the mouth by a ball batted by a player on his team named Speary. McKee fell unconscious and died in a few minutes. Dr. Wolfe found that the ball had driven the roof of the mouth through the brain into the skull at the base, fracturing it.

DeWitt's Kidney and Bladder Pills are best for backache and weak kidneys. Sold by Anstee-Brice Drug Co., 44 South Main.

"BILLY'S" BRIDE BOXED EARS OF NEW HUSBAND

Special to The Tribune.

OGDEN, Aug. 21.—Judge Murphy married "Billy" Clark and Julia Clark in police court today and this terminated, for the present at least, the unhappy love affair of the two negroes. "Billy" was still sore from the kick his mother gave him when she found him preparing to marry the girl, but otherwise was ready to enter the responsibilities of wedded bliss. The ceremony was brief, but Judge Murphy did not kiss the bride. The police found "Billy" tickled, and his sport with him. Because he permitted himself to be tickled the bride of a few minutes ago boxed his ears on the ear. "Billy's" mother, who proved a permanent yesterday, discreetly stayed away, and the distressed boy and girl were permitted to go in peace after they had been stormed with rice.

BORAH READY FOR TRIAL IN TIMBER FRAUD CASE

Special to The Tribune.

BOISE, Aug. 21.—In an interview here, United States Senator W. E. Borah said he would be ready for trial when the Federal court opens here on September 9, on an indictment in timber fraud case that may have been returned against him.

BOISE TO JOIN IN NEW PUBLIC BUILDING

Special to The Tribune.

BOISE, Aug. 21.—The City Council of Boise has authorized a contract with this (Ada) county for a joint administration building. It is the intention of the Council and County Commissioners to erect a building to cost about \$350,000. The question will soon be submitted to the taxpayers of the county.

GRAND OPENING FIGHT SENDS ONE TO HOSPITAL

Special to The Tribune.

BOISE, Ida., Aug. 21.—In a mix-up at the Kelley Hot Springs, near this city, last night, C. E. Phillips of Babbartown was severely cut about the head with a beer bottle and is now at the hospital. It was the grand opening of the resort, and some 100 attendances were hilarious and a fight followed.

Boise Summer School.

Special to The Tribune.

BOISE, Aug. 21.—The Boise State summer normal school, which has been in session the past six weeks, closed today, after a very successful term. The attendance throughout was very good.

Boise Methodist Conference.

Special to The Tribune.

BOISE, Aug. 21.—The attendance at the Methodist conference, which opened yesterday, is unusually large, many delegates having come in since the first session. Great interest is being manifested.

DEMAND FOR HOMES EXCEEDS THE SUPPLY

Salt Lake Realty Men Will De-
vise Plan to House New
Settlers.

The demand for houses is so great that the real estate men have almost despaired of supplying the wants of their would-be patrons, and the Real Estate association is preparing to take steps calculated to bring relief. What this action will be has not been made public, and possibly has not been determined, but the realty men have arranged to hold a smoker at the association offices next Saturday night, beginning at 7:30 o'clock, when the matter will be discussed.

There has never been a time this year when the local realty concern could offer any variety of propositions to prospective customers. Last spring one of the firms which handles about 300 houses had its supply completely exhausted. Some of course, which were for sale, had been rented, but money was being collected on every available structure on the firm's list. Other firms had a similar experience. But meanwhile conditions have become even more acute. Many families that arrived recently have been compelled to secure temporary accommodations in rooming houses where they are making the best of conditions. Their furniture is in storage, where it will remain until the families are able to rent.

The demand is for all kinds of residence property. Some of the new arrivals have plenty of money to invest, while the third class is calling for cheap houses. Rental properties of all kinds are always in demand. The real estate men say that the time has come when prompt action must be taken, and it is probable that Saturday evening some will suggest a way to alleviate conditions.

ORACLE PREDICTS FEW SHOWERS TODAY

Weather Statistics Are Difficult
to Get From Other
Places.

Owing to delay in the transmission of weather statistics, the local bureau finds it difficult to compare its data with various other sections of the lake and Atlantic coast regions. Low barometric pressure was central over the Southern plateau and North Atlantic States, and high pressure was central over the Upper Mississippi valley. Owing, however, to the absence of a few light showers after 3 p. m. the temperature Wednesday reached its maximum about noon, when the mercury mounted to 82 degrees.

The time when the statistics for Wednesday's report were received it was raining in portions of Arizona, New Mexico, Colorado, Kansas, and Nebraska, and sections of the lake and Atlantic coast regions. Low barometric pressure was central over the Southern plateau and North Atlantic States, and high pressure was central over the Upper Mississippi valley. Owing, however, to the absence of a few light showers after 3 p. m. the temperature Wednesday reached its maximum about noon, when the mercury mounted to 82 degrees.

Wednesday's Record.

United States Department of Agriculture, weather bureau, meteorological report. Record at the local office, United States Weather Bureau, for the twenty-four hours ending August 21, 1907, at Salt Lake City, Utah. Maximum temperature, 87 degrees. Minimum temperature, 59 degrees. Mean temperature, 72, which is 2 degrees above normal. Accumulated deficiency of temperature since the first of the month, 78 degrees.

Accumulated excess of temperature since January 1, 172 degrees. Relative humidity, 42 at 8 a. m. Total precipitation from 8 a. m. to 6 p. m., .01 inch.

Accumulated excess of precipitation since the first of the month, .27 inch. Accumulated excess of precipitation since January 1, 3.51 inches.

A first-class engraver is now in Salt Lake. The Pembroke Stationery has secured Mr. Charles M. Smith of Chicago for their engraving department, and now wedding announcements, at homes, society engravings, as well as business commercial and professional stationery will be produced right here in Salt Lake, in fine style, at reasonable prices, and on time.

MODERN WOODMEN HAVE STREET PARADE

Preliminary to their outing at Lagoon today, the Modern Woodmen of America held a torchlight procession on the business streets of the city Wednesday night. Considering the fact that it was intended to call attention to the celebration, it was an elaborate affair and reflected credit on the organization. There were several artistically designed floats, a band, a drum corps, dancers and a number of torch-bearers. For the affair was participated in by Woodmen from all parts of the State. Those from out of town returned to the city and will attend the outing today.

The first feature of the parade was a figure representing Uncle Sam being a large American flag. Following this, in order, were a squad of policemen, the camp drum drawing a cart, fire half of Camp 1067, held a drum float, uniformed team, float. "My Father Was a Woodman," second half of Camp 1067, float. "Kodak," drum corps, float, uniformed team of Camp 1062.

UTAH POLYGAMISTS SEVERELY CONDEMNED

Daily News of Bangor, Maine,
Says Practice Is an
Abomination.

Recently the Reorganized Church of Latter-day Saints dedicated a new church at Mountainville, Me. The services, as reported in the Bangor Daily News, were of a most impressive character. The dedicatory sermon was preached by Elder W. E. LaRue of Stirlington, who is the pastor in charge.

Commenting on the work of the Reorganized church, the Bangor News says: "There are two separate and distinct churches of the Latter-day Saints. The Latter-day Saints of Mountainville and vicinity are a branch of the Reorganized Church of Latter-day Saints, the headquarters of which is at Lamoni, Ia. They utterly repudiate any association with the so-called Latter-day Saints of Utah, commonly called Mormons. They regret that the name 'Latter-day Saints' should ever have been from any standpoint disgraced by the un-Christian, barbarous, loathsome and disgusting doctrine of polygamy, which has been the chief cornerstone of the Mormon church of Utah. There are about 300 members of the Reorganized church in the State of Maine, who are widely scattered throughout the State.

The Reorganized church, under President Smith, not only refrains from indulging polygamy, but is the most alert and active enemy that the abomination has. As a church, it is a model of what a church should be in every way. He contends that polygamy formed a part of the teaching of the church of the Latter-day Saints, which he believes was first promulgated as a religious tenet by Brigham Young in August, 1832, and that Brigham Young and all who followed him and believed his corrupt teaching are alone responsible for the wicked practice."

President Smith of the Reorganized church has made a record during the past forty-seven years in which he has acted as the chief officer of the church of which he may be justly be proud. In character—a Christian, as a citizen, law-abiding and loyal to the Government of the United States in every way. He contends that polygamy formed a part of the teaching of the church of the Latter-day Saints, which he believes was first promulgated as a religious tenet by Brigham Young in August, 1832, and that Brigham Young and all who followed him and believed his corrupt teaching are alone responsible for the wicked practice."

OPENING NEW ROAD TO PASSENGER TRAFFIC

MARYSVILLE, Cal., Aug. 21.—Official announcement was made today by the Northern Electric company that a new line to Sacramento from this city will be formally opened for passenger traffic August 23. The road has been doing freight business over this new line for several weeks.

Seven children of the late ex-Senator Daniel A. Ostrom have agreed among themselves over the division of their father's estate. The late Senator's great wheat farm, while two sons and two daughters take the remaining half. The public had expected a long fight over this estate, but it will not develop. The personal property was all sold at auction yesterday.

John Pearson, a pioneer hotel man, died in Marysville today. He was a native of England, aged 65, and leaves five sons and two daughters.

The body of the unknown man found in Feather river, near Yuba City, was buried today. Thomas Howe was unable to discover the identity. The body was found by two fishermen, who hooked it, when fishing for bass. The man was about 25 years old and probably Irish.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him. It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—Sam H. Gwin, Concord, Ga. For sale by all druggists.

FOOD FACTS Grape-Nuts

FOOD
A Body Balance.

People hesitate at the statement that the famous food, Grape-Nuts, yields as much nourishment from one pound as can be absorbed by the system from ten pounds of meat, bread, wheat or oats. Ten pounds of meat might contain more nourishment than one pound of Grape-Nuts, but not in shape that the system will absorb as large a proportion of, as the body can take up from one pound of Grape-Nuts.

This food contains the selected parts of wheat and barley which are prepared and by natural means predigested, transformed into a form of sugar, ready for immediate assimilation. People in all parts of the world testify to the value of Grape-Nuts.

A Mo. man says: "I have gained ten pounds on Grape-Nuts food. I can truly recommend it to thin people." He had been eating meat, bread, etc., right along, but there was no ten pounds of added flesh until Grape-Nuts food was used.

One curious feature regarding true health food is that its use will reduce the weight of a corpulent person with unhealthy flesh, and will add to the weight of a thin person not properly nourished. There is abundance of evidence to prove this.

Grape-Nuts balances the body in a condition of true health. Scientific selection of food elements makes Grape-Nuts good and valuable. Its delicious flavor and powerful nourishing properties have made friends that in turn have made Grape-Nuts famous. "There's a Reason." Read "True Food to Wellville," in page.
